# CAPABILITY briefing

A capabilities briefing for the clients and partners of Macro Solutions

## Macro Solutions has Disciplines, Methodologies, and Experience.

Macro Solutions, an emerging leader in the delivery of effective solutions to government departments and agencies, has proven capabilities, as well as established business partnerships, that bring in-depth knowledge and experience to its clients. From organizational structure to leading-edge technologies, Macro Solutions has the resources to solve today's most complex corporate and governmental challenges.

Macro Solutions' highly skilled professionals have extensive knowledge of best-of-breed technologies used in today's complex business world. Our capabilities range from financial management and human resource systems consulting to services that augment a client's entire information technology operation.

We recognize the importance of customized, efficient solutions to challenges you face in today's business environment.

We tailor each solution to bring your current and future targets more clearly into focus. Our project teams include consultants, project managers, architects, industry and technical specialists, accountants, and engineers.

Proven processes and effective program management assure our clients that their information technology projects will run efficiently and that their organizational goals will be achieved.

## CASE STUDIES

### Management Consulting

Macro Solutions performed an Information Technology Program Assessment (ITPA) for the FDIC. The assessment identified areas of inefficiency and high comparative costs and made recommendations to support an efficient and effective client-focused IT program.

### Enterprise Solutions

Macro Solutions is part of the team implementing PeopleSoft HR and Payroll for the Department of Defense. The Defense Integrated Military Human Resources System (DIMHRS) collects data on every aspect of a military service member's career. Service members can access their information via a web portal.

# Strategic Capabilities

**Management Consulting** | Macro Solutions' management consulting practice delivers broad, cross-functional solutions, working in tandem with clients to achieve their organizational goals through business process reengineering, IT strategy development, in-depth organizational and systems analysis, and the application of technology to business processes. We have performed Independent Verification and Validation (IV&V) services for large-scale systems implementation projects and have provided financial workforce outsourcing solutions. We work directly with client organizations to create and implement innovative strategies and capabilities that succeed in today's challenging business and government environment.

**Enterprise Solutions** | Today's rapidly changing business environment depends upon customers, channels, marketing strategy, responsiveness, and value. Our experienced professionals deliver financial, human capital management, and customer relationship and supply chain management systems solutions that incorporate streamlined business processes, change management, and robust technology. Our experience implementing and supporting sophisticated ERP systems provides clients with expertise that will guide them from software selection through the entire Systems Development Life Cycle.

**Information Technology Security** | Macro Solutions IT Security consultants are highly trained and deeply skilled functional and technical professionals with industry experience that ranges from Corporate Commercial to Government (Federal, State, and Local).

As a trusted advisor to our clients, Macro Solutions Security Consulting combines seasoned practitioners, state-of-the-art tools, and high-quality program management to deliver optimal security and compliance solutions. Using a business-driven approach, Macro Solutions experts are skilled in the art of risk mitigation, providing the necessary balance between bulletproof protection and overall cost.

### Information Technology & Risk Consulting

- Corporate Compliance
- Internal Audit
- Business Continuity Planning (BCP)
- Information Technology Audit
- Sarbanes-Oxley (SOX) Audit
- Health Insurance Portability and Accountability Act (HIPAA) Audit

### Information Technology Security Consulting

- Incident Response & Computer Forensics
- Intrusion Detection
- Penetration Testing

### Information Technology Outsourcing

| With a vision of how outsourcing can create value and drive growth, Macro Solutions will ensure that you have the correct resources available to assist your organization with all types of technology projects. We deliver high quality, predictability, and consistency that results in quantifiable business impact. This uniquely positions us to help customers maximize and protect their technology investment. Our objective is to provide the right combination of highly skilled information technology consultants necessary to meet your organization's immediate needs. Our professionals fit well with any team, providing valuable additional functional and technical expertise.

### Management Consulting

Macro Solutions, as part of a team, performed the Independent Verification & Validation role for the PeopleSoft 8.3 HRMS implementation at the Department of Health and Human Services. We evaluated the work of the implementation contractor, and tasks included Process Analysis, Software Requirements Analysis, & Interface Requirements Analysis.

### Fundraising & IT Outsourcing

Macro Solutions was responsible for the development of the Smithsonian Institution's Development and Membership Information System (DMIS) database. DMIS replaced two existing systems at the Smithsonian, DonorWise and SCAN. The majority of the work performed encompassed Database Administration and Analysis.

# QUALIFICATION briefing

A qualification briefing for the clients and partners of Macro Solutions

## Enterprise Solutions

Macro Solutions has implementation experience with many Enterprise Systems software packages, including Oracle, PeopleSoft, SAP, AMS, Lawson, and others for Federal government as well as commercial clients. We provide assistance throughout the Systems Development Life Cycle, from software selection through implementation and testing.

**Smithsonian Institution** | Implementation of PeopleSoft Financial and HRMS systems to replace legacy software.

**Department of Defense** | Implementation of PeopleSoft HR to all branches of service in the Department of Defense.

**FDIC** | Implementation of PeopleSoft Financial System and a PeopleSoft Portal / IBM WebSphere / Asset Management integration project.

**PBGC** | Implementation and maintenance of Oracle Financial System.

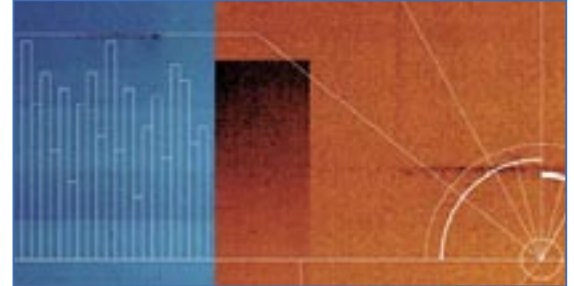

**HUD** | Maintenance of PeopleSoft Financial System for FHA.

**Army** | Implementation of SAP Financial System.

## Management Consulting

Our management consulting practice delivers broad, cross-functional solutions, working in tandem with clients to achieve their organizational goals through strategy development, implementation of enhanced approaches, and the application of technology to business and HR financial processes.

**Health and Human Services** | Independent Verification and Validation (IV & V) for PeopleSoft HRMS Systems implementation.

**FDIC** | A comprehensive information technology systems assessment in conjunction with the CIO's office.

**SBA** | Project Management Office (PMO) setup for future implementation.

## Information Technology Outsourcing

Macro Solutions will ensure that you have the correct resources available to assist you in implementing technology solutions. We deliver high quality, predictability and consistency that results in quantifiable business impact. This uniquely positions us to help customers maximize and protect their technology investment.

**Smithsonian** | Developed payroll interface with the National Finance Center and implemented a membership and fundraising system.

**Army** | ITES 2 (IDIQ contract for IT services).

**Secure Agency** | Integration and database administration services for AMS Financial Systems software.

**FDIC** | ITAS (IDIQ contract for IT services).

**Enterprise Solutions**

Macro Solutions worked as part of a team to create an ePayroll Interface to the National Finance Center (NFC). We provided both functional and technical expertise.

The ePayroll project is part of an initiative that serves to standardize Federal payroll policies and procedures and improve integration of payroll with HR and financial management.

**IT Outsourcing**

Macro Solutions developed the interface between the National Finance Center payroll process and the Smithsonian Institution's General Ledger system.
